

# Be Prepared for Storm Season!

## 5 THINGS TO CONSIDER:

### 1) CHECK YOUR INSURANCE

- Check your home and car insurance is current and suitable.

### 2) PREPARE A PLAN

- Identify the safest room where to evacuate to (usually the smallest with least windows)
- Have emergency numbers handy (SES, Fire, Police, Ambulance, Hospital)
- Know your neighbours

### 3) PREPARE YOUR HOME

- Fix broken tiles, eaves, and roofing screws,
- Make sure gutters and down-pipes are clear, trim trees and remove debris and items that might become airborne and dangerous in high winds
- If there is a risk of flooding, store chemicals, and items damaged by water away from the flood-prone area.
- Ensure electrical outlets and items are not live
- Have plenty of water, non-perishable food, and masking tape for windows
- Know how to disconnect power and gas
- Consider an inspection from a builder.

### 4) PREPARE YOUR EMERGENCY KIT:

Consider including

- Comprehensive First Aid Kit,
- Torch, Lantern, Radio & Batteries,
- Waterproof Jacket, Gloves, Boots, Change of Clothes
- Toilet Paper, Toothpaste, Toothbrush,
- Knife, Tools, Whistle, Camping Stove
- Mobile Phone with charger.

Make sure all items are functioning.

### 5) PREPARE YOURSELF:

- Learn First Aid or ensure your skills are up to date.
